Project Description

According to the Bank's website, the project aims to further improve the financial management capabilities of potential IFC investment in the African region through a set of designed advisory tools focusing on four main technical pillars:

1. Improving finance department structure and organization;
2. Enhancing working capital management practices;
3. Reviewing and upgrading client's management information systems (MIS); and
4. Supporting compliance with international financial reporting standards (IFRS) and/or local standards.

The project will include two offering types (Standard & Bespoke) based on a framework of pre-determined criteria that require varying degrees of engagement and tailoring.

1. Standard Offering: Provides an entry point to engage with a wider range of clients. Leveraging the FMA in-house assessment tool, clients are offered a detailed assessment to identify key challenges across the four intervention pillars, and benchmark against best practices.
2. Bespoke offering: Provides clients with the tailored offering, each client engagement will be designed to address key clients' bottlenecks in order to mitigate investment requirement on a case-by-case basis.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
