Project Description

According to the Bank's website, the project aims to provide target clients with the tools and know-how to implement financial management best practices in relation to the four main intervention pillars, namely:

- i. Improving finance department structure and organization
- ii. Improving working capital management practices
- iii. Reviewing and upgrading client MIS'
- iv. Supporting compliance with International Financial Reporting Standards (IFRS) and/or other local standards

The project will include two offering types (Standard & Bespoke) based on a framework of pre-determined criteria that require varying degrees of engagement and tailoring.

- 1. Standard Offering: Provides an entry point to engage with a wider range of clients. Leveraging the FMA in-house assessment tool, clients are offered a detailed assessment to identify key challenges across the four intervention pillars, and benchmark against best practices.
- 2.Bespoke offering: Provides clients with the tailored offering, each client engagement will be designed to address key clients' bottlenecks in order to mitigate investment requirement on a case-by-case basis.
