Project Description

According to the Bank’s website, IFC's PPP Transaction Advisory Services Unit will assist the Government of Uzbekistan in structuring and implementing of a PPP transaction. The PPP contract(s) will include the design, construction, financing and operation of 200 pumping stations and associated water network. IFC would apply two-phased transaction implementation approach. In Phase 1, IFC will carry out due diligence analysis of the project, assessment of investors’ interest, and the transaction structuring. In Phase 2, IFC will draft the tender documentation and support the Clients in implementation and conclusion of the tender process.

The project objective is to introduce private sector participation in Uzbekistan’s irrigation sector through a competitive process. Successful implementation of the Project is expected to result in the mobilization of private sector investment and expertise in the modernization, operation and maintenance of up to 200 irrigation pumping stations, with a focus on enhancing their energy efficiency.
