Project Description

According to the Bank's website, the IFC MEPA IDA-FCS Investment Accelerator Program addresses the significant challenges faced by the Middle East, Pakistan, and Afghanistan (MEPA) region, including climate change, food insecurity, conflicts, and healthcare and education issues. This project initiative aligns with IFC's strategic priorities and the World Bank Group's goals, leveraging IFC's expertise to address the unique challenges of investing in IDA and FCS countries in the MEPA region and contributing to the sustainable development and economic growth of the region.

The MEPA IDA-FCS Investment Accelerator program aims to unlock private sector investment in fragile and conflict-affected states (FCS) and International Development Association (IDA) countries within the Middle East, Pakistan, and Afghanistan (MEPA) region. The program focuses on developing a sustainable pipeline of investable projects and sponsors through programmatic business development, identifying upstream and advisory opportunities, streamlining blended finance and grants, knowledge management, and creating partnerships. It aims to increase IFC's investment in IDA and FCS countries by generating at least US\$150 million in long-term financing over the next three years, focusing on priority sectors such as manufacturing, agribusiness, and services, with an emphasis on food security and healthcare.
