### Project Description

According to bank provided information, IFC's PPP Transaction Advisory Services Unit will support Matarat Holding in structuring and implementing a PPP transaction for the development of Taif International Airport in the Kingdom of Saudi Arabia. The PPP contract will include the design, construction, financing, operation, and maintenance of the airport (the "Project"). In its role as strategic advisor, IFC will work in close coordination with the Client's appointed consultants to ensure the transaction is bankable and aligned with best practices. The Project will be tendered through a competitive two-stage process, starting with the RFQ to shortlist eligible bidders, followed by the RFP to select the winning bidder. The expected outcome is the signing of the Project Agreement with the selected private sector sponsor, enabling mobilization of significant private sector investment and expertise for the delivery and long-term operation of Taif International Airport.
