Project Description

The project aims to finance the permanent working capital of this company, also allowing it to improve its financial profile and diversify its sources of financing. NS AGRO S.A., is one of Chile's leading crop input distributor and agronomy services company providing agricultural inputs (agrochemicals, fertilizers), agricultural machinery (ECSA) and technology dissemination to farmers. NS AGRO operates 24 Distribution Centers (2 in Peru, 22 in Chile from the IV to the XI region), all located near major cropping regions to guarantee a rapid delivery of inputs and efficient customer service to its clients. The Company's strategy is to develop strong on-the-ground relationships with farmers providing integral services.

ACCOUNTABILITY MECHANISM OF IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
