<b>Sectors</b>	Construction, Energy
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 7.20 million
<b>Project Cost (USD)</b>	\$ 88.73 million

## Project Description

La Jacinta is a 50MW (AC) / 64.8MW peak (DC) fixed tilt photovoltaic (“PV”) power plant and its associated facilities. La Jacinta is located in Salto, Department of Salto, Uruguay, and currently operates under a 30-year Power Purchase Agreement (“PPA”) with UTE, the state-owned utility of Uruguay.

The La Jacinta solar power project financed by the IDB with an A/B Loan for US\$56 million and a C2F Loan for US\$25 million is seeking to optimize its current financing through an IDB Invest A/B Bond. The B-Bond will be sold into the private placement market under section 4 (a) (2) of the 1933 U.S. Securities and Exchange Commission Act. This structure will allow the Project to achieve longer tenors than in the traditional bank market.

The proceeds of the B-Bond will be used to repay the IDB A and B Loans in their entirety. As part of the financial plan the IDB Invest provides an A Loan for approximately US\$7 million and purchase up to 5% of the B-Bond. The tenor of the A Loan and B Bond will be 25 years.

## ACCOUNTABILITY MECHANISM OF IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
