Project Description

The Puerto Bolívar transport project (the "Project") aims to finance the capital expenditure required for the first stage of an investment plan for the modernization, operation and maintenance activities of the Puerto Bolívar Port Terminal, located at the province of El Oro, Ecuador. This investment will expand the port’s capacity to operate containers from 120,000 TEUs to up to 600,000 TEUs per year.

One of the focuses of the project seems to be Shrimp and Banana exports.

The Project is part of the privatization process of the existing Puerto Bolívar.

ACCOUNTABILITY MECHANISM OF IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
