Project Description

The project, under implementation of Itapoá Terminais Portuários S.A, consists of an expansion on the capacity of the quay and storage yard of the Itapoá Container Port, located in Santa Catarina, Brazil. The current Itapoá port has been operating above its capacity for the last two years and the expansion will allow it to adequate to the current market conditions and more efficiently serve the region.

The project includes the following:

- Yard expansion from 146k sqm to 296k sqm.
- Wharf adequacy from 630m to 800m, in order to receive two ships at the same time
- Container handling capacity increase from ~510,000 to ~1.2 mm TEUs

Investment Description

- IDB Invest (IDBI)

Private Actors Description

Itapoá Terminais Portuários S.A. constructs, operates, and maintains a private marine terminal. The company operates Porto Itapoá, located in north coast of Santa Catarina, Brazil.

ACCOUNTABILITY MECHANISM OF IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
