Project Description

The Hanoi - Haiphong expressway will stretch from Ring Road 3 on the south-western outskirts of Hanoi to the eastern side of Haiphong, close to the city’s port facilities. The 106-kilometer expressway will have six carriage lanes, emergency lanes, and two frontage roads and it will employ a closed toll system. The expressway will run parallel to and south of National Highway 5, a four-lane main road that currently serves as the main link between Hanoi and Haiphong, Vietnam’s second and third largest cities, respectively.

ACCOUNTABILITY MECHANISM OF MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at http://www.cao-ombudsman.org/
