The \$69.5 million guarantee will provide coverage for a period of up to 15 years against the risk of non-honoring of sovereign financial obligations.

The project involves the installation of a dual-fuel (natural gas or HSD) gas turbine, generator, steam turbine, and a heat recovery steam generator, as well as the construction of a switchyard and extension of an existing switching station. Water treatment and cooling systems will be shared with Sirajganj 2nd Unit.
