### Project Description

According to bank documents, on June 28, 2019, MIGA issued guarantees of up to US\$66.5 million covering BBAC's branches in Iraq against the risk of expropriation of mandatory reserves held at the Central Bank of Iraq, for a period of up to 5 years.

Lebanon-based BBAC is one of the main commercial banks among Lebanese banks operating in Iraq. BBAC's foreign branches are required to maintain reserves at the central banks of their respective jurisdictions, based on the volume of customer deposits. Mandatory reserves affect BBAC's overall risk-weighted assets (RWA) at the consolidated level, resulting in less headroom for other assets at a given level of capital.
