The RWA capacity that is freed up is expected to help NLB Skopje grow the supply of credit, thereby supporting employment in the country.

Investment Description

- Multilateral Investment Guarantee Agency (MIGA)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [NLB Group](#) (Financial Intermediary)

Private Actors Description

According to MIGA, NLB Group is the largest banking and financial services group in Slovenia with operations across southeastern Europe. NLB Group's nine banking subsidiaries outside of Slovenia hold reserves in excess of the required amount (i.e. mandatory reserves) with the central banks in their respective jurisdictions, based on the volume of customer deposits. Voluntary cash reserves affect NLB's overall risk-weighted assets (RWA) at the consolidated level, resulting in less headroom for other assets at a given level of capital.
