## Project Description

This summary covers equity investments by BNP Paribas S.A. (BNPP or the Group), in its subsidiary in Algeria, BNP Paribas El Djazair (BNPPED or the Subsidiary). The investor has applied for a MIGA guarantee of up to USD241.0 million for capital optimization cover for a period of up to 3 years (the Project).

BNPP is a leading bank and key player in international banking, which has a presence in 65 countries, with close to 190,000 employees, including nearly 145,000 in Europe. The Group supports all its customers - individuals, associations, entrepreneurs, SMEs and institutions - in the success of their projects through its financing, investment, savings and protection solutions.

BNPPED, a 100% subsidiary of the BNPP Group since 2002, exercises a universal banking activity, thus addressing all types of customers: Individuals (including Algerians residing abroad), Professionals and Companies, through its network of 71 branches and 14 business centers in Algeria.

### ENVIRONMENTAL CATEGORIZATION

The Project will support all of BNPPED's activities. BNPPED provides financial products and services to individuals, micro, small and medium enterprises (MSMEs), and corporates in Algeria. The main sectors supported include industrial manufacturing, automobile sales and repairs, real estate, and construction. These sectors are typically considered to have limited E&S risks and impacts which can be managed through mitigation measures. This project has been categorized as FI-2 in accordance with MIGA's Policy on Environmental and Social Sustainability (2013).

The main E&S risks of this project relate to BNPPED's ability to identify, assess, and manage the E&S risks and impacts associated with its lending activities and the management of labor matters. MIGA analyzed BNPPED's portfolio for types of transactions, tenor, size, industry sectors, and exposure to MIGA's Exclusion List. MIGA also analyzed the bank's E&S risk management procedures in line with the requirements of Performance Standard 1: Assessment and Management of Environmental and Social Risks and Impacts (PS1), and the bank's labor practices in line with the requirements of Performance Standard 2: Labor and Working Conditions (PS2). The applicable E&S requirements for this project will be: (i) MIGA Exclusion List; (ii) applicable E&S laws and regulations in Algeria; and (iii) the Performance Standards (for eligible corporate transactions).
