Project Description

According to the Bank's website, on June 24, 2024, MIGA issued a guarantee totaling US\$56.47 million to ABSA Group Limited a portion of its new and existing equity investments in its subsidiary in Seychelles (ABSA Bank Seychelles Ltd), against the risk of Expropriation of Funds for mandatory cash reserves held at the Central Bank of the host country. The new investment is expected to be in the form of retained earnings in ABSA's subsidiary in Seychelles ("the subsidiary") relating to ABSA's banking operations in the host country.

This transaction is MIGA's second capital optimization project with ABSA, following the initial coverage in 2019, and is expected to provide regulatory capital relief to ABSA on a consolidated level by reducing the amount of Risk Weighted Assets (RWAs). The tenor of the proposed guarantee is expected to be up to 10 years (the remaining tenor of the first transaction).

Early Warning System Project Analysis

ABSA Seychelles provides retail, small and medium enterprise (SME), and corporate finance services to clients in Seychelles. The MIGA project will support all the bank's lending activities. The environmental and social (E&S) risks and impacts associated with the main sectors financed by ABSA Seychelles are typically moderate and long-term lending to high-risk sectors is limited in number. This project has thus been categorized as FI-2 in accordance with MIGA's Policy on Environmental and Social Sustainability (2013).

The main E&S aspects of this project relate to ABSA Seychelles' ability to identify, assess, and manage the E&S risks and impacts associated with its lending activities and the management of labor matters.

As of December 2023, ABSA Seychelles' portfolio included the following business segments - corporate loans, retail loans (mortgages and consumer loans), and SME loans. The main sectors financed by ABSA Seychelles include commercial development, tourism, and trade. ABSA Seychelles currently has limited exposure to activities on the MIGA Exclusion List. The bank has no exposure to coal-related projects.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
