### **Project Description**

According to MIGA, this summary covers equity investments by Banco Santander, S.A. (Santander or the Group), in its subsidiary in the Republic of Colombia, Banco Santander Colombia S.A. (Santander Colombia or the Subsidiary). The investor has applied for a MIGA guarantee of up to USD 100 million for capital optimization covering the risk of expropriation of the Subsidiary's mandatory reserves held at the Central Bank of Colombia for a period of up to 3 years (the Project).

Spain-based Banco Santander is one of the largest global financial institutions in the world in terms of market capitalization with retail and commercial operations in countries across Europe, Latin America, and North America. Its subsidiary banks abroad are required to maintain reserves at the central banks in their respective jurisdictions, based on the volume of customer deposits that these subsidiaries have. Mandatory reserves contribute to Santander's overall risk-weighted assets (RWA) at the consolidated level, resulting in less headroom for other assets at a given level of capital.
