## Project Description

This summary covers a non-shareholder loan by Standard Chartered Bank of the United Kingdom, and other financial institutions still to be identified, to the Development Bank of Southern Africa (DBSA). Standard Chartered, and other financial institutions still to be identified, have applied for a MIGA guarantee of up to \$361 million for a period of up to 11 years against the risk of non-honoring of financial obligations by a state-owned enterprise. This proposed project involves the expansion of lending by DBSA, a wholly-owned financial institution of the government of South Africa. As the key implementing agency for South Africa's National Development Plan, DBSA supports economic growth and development in the country and the broader Southern African Development Community. MIGA's support will allow DBSA to expand its US dollar lending portfolio, primarily in infrastructure.
