Private Actors Description

Vienna-based Raiffeisen Bank International (RBI) is a universal banking group that has operated for over 30 years in Central, Eastern and Southeastern Europe (CEE). It is present in 15 markets with a network of retail banks across CEE. RBI's subsidiary banks abroad are required to maintain reserves at the central banks in their respective jurisdictions, generally based on the volume of customer deposits that these subsidiaries have. This exposure leads to higher risk weights on assets at the consolidated level, resulting in increased capital allocation for country risk exposure. At the consolidated level, the risk weighting determines the amount of equity required to maintain a specified capital adequacy ratio in accordance with European banking regulations.

ACCOUNTABILITY MECHANISM OF MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at http://www.cao-ombudsman.org/
