## Project Description

According to MIGA's website, the MIGA guarantee will be an amount of up to US\$400 million, including principal, interest and premium, for a period of up to 11 years against the risk of Non-Honoring of Financial Obligations by a State-Owned Enterprise (NHSOE). Under this proposed project, the lenders will extend a loan facility denominated in US dollars to Indonesia Eximbank to strengthen and diversify Eximbank's funding base and support Indonesia Eximbank's mission to grow exports, diversify export markets, and better match assets and liabilities.

It aims to provide longer tenor funding to Indonesian exporters, increasing its scope and contributing to the diversification of the Indonesian economy by supporting the progressive expansion into new, non-commodities-driven export markets.
