## Project Description

As stated by the NDB, the Project entails the construction of a model smart public hospital, specializing in emergency medicine, intensive care and neurology. Successful implementation of this pilot project will allow replication of the model across the country. For the pilot, one of the oldest academic clinics in Brazil, the University of São Paulo's Hospital das Clínicas, has been selected.

The São Paulo metropolitan area, home to over 20 million people, has only 2.1 hospital beds per 1,000 inhabitants as compared to the minimum recommended 2.5 beds, resulting in a shortfall of approximately 8,600 beds. The Project envisages a new 150,000 sq. m facility that will include 800 beds and 30 surgical rooms, host a national centre for translational research and integrate advanced medical technologies, telemedicine services and AI-based scheduling systems to optimise patient flow. The hospital will also be built according to international green standards.

### Investment Description

- New Development Bank (NDB)

---

## Contact Information

*No project contacts provided at the time of disclosure.*

## ACCESS TO INFORMATION

You can submit an information request for project information through a form at the bottom of the following webpage <https://www.ndb.int/about-us/contact-us/>. Alternatively, you can send an e-mail to [info@ndb.int](mailto:info@ndb.int).

## ACCOUNTABILITY MECHANISM OF NEW DEVELOPMENT BANK

The New Development Bank (NDB) does not currently have an independent accountability mechanism to accept complaints related to NDB-financed projects. The Bank does have a whistleblower mechanism that receives complaints about misconduct related to corruption, fraudulent practices and instances of money laundering in projects financed by the NDB and/or against the NDB staff members. To learn more about the whistleblower mechanism and how to file a complaint, access this webpage at: <https://www.ndb.int/about-us/whistleblowing/>.
