Project Description

As stated by the NDB, the Program will support the Metro Trading Services Grant of the Government of South Africa, a performance-based incentive aimed at addressing critical infrastructure gaps and institutional shortcomings in provision of trading services in the Metros. The Program comprises three components. Component 1 focuses on improving operational performance through targeted investments in physical infrastructure and digital systems across the three trading services. Component 2 aims to enhance the financial performance of trading services, while Component 3 supports institutional strengthening including capacity building.

The Program aims to enhance infrastructure performance, financial sustainability and institutional governance across the three trading services in the eight Metros. By FY2031, the Program is expected to directly and indirectly benefit the 24 million residents of the Metros through improved service delivery, contributing to better living conditions and a stronger urban investment climate in line with the South Africa's National Development Plan 2030.

The project implementing entity will be the Department of National Treasury of South Africa.

ACCOUNTABILITY MECHANISM OF NEW DEVELOPMENT BANK

The New Development Bank (NDB) does not currently have an independent accountability mechanism to accept complaints related to NDB-financed projects. The Bank does have a whistleblower mechanism that receives complaints about misconduct related to corruption, fraudulent practices and instances of money laundering in projects financed by the NDB and/or against the NDB staff members. To learn more about the whistleblower mechanism and how to file a complaint, access this webpage at: <https://www.ndb.int/about-us/whistleblowing/>.
