Project Description

As stated by the NDB, the proposed NDB loan will support the expansion of Paraíba's water supply infrastructure, thus enhancing water availability and resilience to climate change, in line with the State Water Resources Plan/*Plano Estadual de Recursos Hídricos da Paraíba*.

The Project consists of the following components:

Component 1: The Transparaíba/Curimataú Water Supply Extension Pipeline System Phase II (*Sistema Adutor Transparaíba Ramal Curimataú 2ª Etapa*), to supply piped water to around 77 thousand inhabitants of the Agreste Paraibano region by building 182 km of water mains, 7 pumping stations and 9 service reservoirs.

Component 2: Microregião Hidrica 89 (MRH89) Integrated Water Supply Pipeline System (*Sistema Adutor Integrado da Microrregião 89*), to supply piped water to around 51 thousand inhabitants of the Sertão Paraibano region by building 103 km of water mains, 5 pumping stations, 2 service reservoirs and 2 water treatment plants.

ACCOUNTABILITY MECHANISM OF NEW DEVELOPMENT BANK

The New Development Bank (NDB) does not currently have an independent accountability mechanism to accept complaints related to NDB-financed projects. The Bank does have a whistleblower mechanism that receives complaints about misconduct related to corruption, fraudulent practices and instances of money laundering in projects financed by the NDB and/or against the NDB staff members. To learn more about the whistleblower mechanism and how to file a complaint, access this webpage at: <https://www.ndb.int/about-us/whistleblowing/>.
