Project Description

The objective of the project is to build the first stage of the Mozambique north-south transmission backbone system required to evacuate electricity from the planned Tete Power Plants which will

1. enable competitively-priced electricity to reach the Southern Africa Power Pool network,
2. enable the provision of a supply of least-cost generation at a high level of reliability to the Mozambique domestic market thereby improving access, and
3. enable the generation of revenues for the Mozambique treasury which will significantly contribute to continued strong balance of payments and robust economic growth necessary to underpin the Government's continued poverty reduction efforts.

This project is part of the Programme for Infrastructure Development In Africa (PIDA)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
