India: FaL-G High Capacity Automation Plants

### Quick Facts

Countries	India
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	B
Borrower	Government of India
Sectors	Industry and Trade

---

### Project Description

This project aims to replace burnt clay bricks with fly ash bricks/blocks manufactured in High Capacity Automation Plants (HCAPs) with a capacity of over 0.2 million bricks/day. The project introduces Solar Accelerated Curing System (SACS), developed by INSWAREB. These systems help to reduce 21-day curing to 36 hours with parallel strength development. This curing system is different from expensive-autoclave which is considered as an energy-guzzler.

### Contact Information

#### ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

#### ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
