## Project Description

We request \$2.5mn from SPF in order to restore safety of CAR's hydropower plants and strengthen the security of electricity supply to the capital Bangui. The grant would cover emergency needs for: (1) the rehabilitation of hydropower facilities with emphasis on dam safety (\$2 million) including (a) technical assistance to develop a dam safety plan and an Emergency Preparedness Plan (EPP) with emphasis on public awareness and training and (b) hydropower rehabilitation equipment purchase and installation; (2) rehabilitation of distribution network (\$0.3 million); and (3) technical assistance to improve the corporate governance and the operational performance of the power sector (\$0.2 million). These components would complement actions funded under the Bank's EPRP and AFD's power rehabilitation project, and scale up achievement of the same objectives.
