Kosovo Power Project

Quick Facts

Countries	Kosovo
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	A
Borrower	PROJECT COMPANY TBD VIA COMPETITIVE TEND
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 40.00 million
Loan Amount (USD)	\$ 40.00 million
Project Cost (USD)	\$ 2,000.00 million

Project Description

According to bank documents, the Government recognizes the urgent need for a functioning electricity system and is implementing the Energy Strategy of Kosovo (2009-2018) (issued by the Government in September 2009) that shifts its approach to energy generation, distribution, and management. The Strategy aims to: (a) reduce the sector's carbon dioxide emissions per megawatt-hour produced, (b) significantly reduce local air pollution, (c) manage end-user demand and create an enabling environment for energy efficiency by instilling payment discipline, and (d) facilitate private sector investment in generation as well as in other sectors of the economy.

The project aims to reduce the environmental impact of electricity generation and strengthen security of supply in Kosovo in an economically efficient, environmentally sustainable, and a carbon-neutral manner.

Investment Description

- World Bank (WB)
