Albania-Enhancing Quality of Financial Reporting (EQ-FINREP)

Project Description

The project provides funding in an attempt to increase "good quality financial reporting". It aims to accomplish this through providing the Ministry of Finance with the money to 1. encourage public availability of company finances and 2. improving monitoring and evaluation by regulators of the quality of financial reporting. The World Bank claims there was a "delay with the project start" but considers the overall implementation of the project to be "satisfactory".
