Project Cost (USD)	\$ 250.00 million

First Programmatic Energy and Water Sector Reforms DPL

WB-P154299

Project Description

The development objective of the First Programmatic Energy and Water Sector Reforms Development Policy Loan (DPL) Program Project for Jordan aims to support fiscal and policy reform programs undertaken by the Government of Jordan in the energy and water sectors. The policy program supported by the DPL will be structured around two pillars: (i) improving the financial viability of the electricity and water sectors; and (ii) increasing efficiency gains in the energy and water sectors. The DPL supports the Jordan 2025 vision of self-reliance and financial stability and contributes to the World Bank's strategic goals of ending extreme poverty and promoting shared prosperity in a sustainable manner. Poverty scenarios in Jordan are usually closely linked to energy, food, and water subsidies, and therefore any reform can reduce the welfare of the poor if not mitigated properly. To minimize the impact of the elimination of subsidies for most petroleum products in 2012, the government simultaneously introduced a cash transfer scheme, known as the fuel compensation cash transfer program for households.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:

http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
