Investment Type(s)	Loan
Investment Amount (USD)	\$ 216.50 million
Loan Amount (USD)	\$ 216.50 million
Project Cost (USD)	\$ 1,743.00 million

Project Description

The National Slum Upgrading Project for Indonesia aims to improve access to urban infrastructure and services in targeted slums in Indonesia. The project includes five components:

The first component: institutional and policy development will support institutional strengthening and capacity building of central government agencies (e.g., BAPPENAS, MPWH) responsible for the management of KOTAKU

The second component is about integrated planning support and capacity building for Local Governments and Communities. The activities under this component will build the capacity of participating local governments to design and implement slum upgrading.

The third component: urban infrastructure and services investment support.

Component 4: Implementation Support and Technical Assistance: This component will finance implementation support and technical assistance to strengthen the capacity of staff of the PMU, provincial level government agencies, participating cities, participating kecamatans (districts), and participating kelurahans, including the hiring of NMCs, TMCs, and OSPs

Component 5: Contingency for Disaster Response: This component will finance preparedness and rapid response measure to address disasters, emergency and/or catastrophic events, in accordance with the applicable Emergency Response Operations Manual.
