Project Description

The development objective of the Second Shared Prosperity Development Policy Loan Project of the Development Policy Financing series is to support the Government of Panama's efforts to (i) strengthen the frameworks for international tax transparency, financial integrity, and fiscal management; (ii) strengthen institutional arrangements to support social assistance and education; and (iii) enhance the regulatory and financial sustainability framework of service delivery in the energy and water sectors.

The proposed Development Policy Financing (DPF) is the second operation in a programmatic series of three, aimed at accompanying Panama's efforts to advance the country's shared prosperity agenda. The operation supports reforms in three main areas of the Government's Economic and Social Strategy 2015-19: (i) international tax transparency, financial integrity, and fiscal management; (ii) social inclusion; and (iii) water and energy service delivery.
