## Project Description

The development objective of Integrated Platform for Gender Based Violence (GBV) Prevention and Response Project for Nepal is to raise awareness about, and improve response to, Gender Based Violence in the country. The proposed additional grant of two million US dollars will support capacity building activities that facilitate support to GBV victims, including those from indigenous groups and other vulnerable communities. This will be achieved by improving the quality and reach of services for GBV survivors through a helpline, promoting greater awareness among key stakeholders and strengthening the capacity of National Women Commission (NWC). The closing date is extended to April 4, 2019.
