## Project Description

According to bank documents, the emerging findings of the Climate Adaptation Technical Assistance show that there are substantial needs for (i) pro-poor and complementary adaptation investments across a range of sustainable land and water management activities and (ii) cross-cutting climate information and emergency response. Accordingly, the Moldova Climate Adaptation & Forestry Project (CAFP) is proposed to focus on a mutually reinforcing set of investments that help to address several key adaptation issues and target the most vulnerable through:

- i. An integrated approach to supporting resilient rural landscapes through investments in on-farm irrigation and other adaptation activities, and forest-based restoration of degraded lands.
- ii. Strengthening of climate knowledge and disaster-risk management systems to improve understanding of climate impacts, and preparedness and response mechanisms, that will benefit a range of sectors.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
