Project Description

According to WB website, the project aims to contribute to export diversification and more and better jobs in targeted sectors. The project comprises of four components. The components of the project are:

Component 1. Market access support program will address critical constraints for the private sector to access international markets and integrate in global value chain (GVCs).

Component 2. Productivity enhancement program will address two sets of constraints related to productivity improvements in the targeted sectors: (a) a shortage of relevant skills, and (b) use of inferior technology by firms, which both impede product quality, innovation, and ESQ compliance.

Component 3. Public investment facility for infrastructure constraints will finance technical assistance (TA), equipment, and works.

Component 4. Project implementation, monitoring, and evaluation (M and E) will finance equipment, operating expenses, training, and consulting services of the project implementation unit (PIU).
