## Project Description

The objective of the Urban Support Program Project is to establish and strengthen urban institutions to deliver improved infrastructure and services in participating counties in Kenya. Economic growth has been accompanied by rapid urbanization. Nonetheless Kenya remains under-urbanized. This means Kenya can still leverage the benefits of urbanization for improving economic opportunities and living conditions. The Government of Kenya has recognized the need to manage urbanization as part of its overall development strategy. Kenya Vision 2030 highlights rapid urbanization as one of four key challenges facing the country. Within the over-arching framework of vision 2030, the urbanization component of the Second Medium Term Plan (MTP2) 2013-17 aims to facilitate a sustainable urbanization process through an integrated urban and regional planning management framework of Kenyan urban centers and towns. Aligned to that goal, the MTP identifies a series of investment programs to enhance infrastructure, connectivity and accessibility, safety and security. Developing the basic institutions required for effective urban management is critical to deliver these investments and for urbanization to contribute to sustainable growth in Kenya.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
