Investment Amount (USD)	\$ 41.90 million
Project Cost (USD)	\$ 41.90 million

Project Description

The objective of the Enhancing Waterway Connectivity and Water Service Provision in Pazcifico Project for Colombia is to improve: (a) waterway transport; and (b) coverage and quality of water supply and sanitation services, in the Participating Municipalities. There are four components to the project, the first component being improving waterway transport in participating municipalities. This component includes two subcomponents: improving waterway navigation and safety, and improving access to waterway transport in participating municipalities. The second component is the improving water supply and sanitation services in participating municipalities. The participating municipalities for WSS investments are identified based on: (i) number of beneficiaries and poverty level, (ii) need to ensure provision of integrated services (water and sanitation), (iii) amount of investment, and (iv) readiness. The third component is the capacity building and institutional strengthening for waterway transport operators and WSS service providers in participating municipalities. This component includes two subcomponents: strengthening waterway transport, and strengthening WSS provision. Finally, the fourth component is the project management and environmental and social management

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
