Project Description

According to bank documents, the Economic Governance Development Policy Operation (EGDPO) supports reforms to reduced fiscal risks and level the playing field for private sector development. The development objective of Economic Governance Development Policy Operation Project is to support the government of Moldova in reducing fiscal risks and leveling the playing field for private sector development. This operation supports reforms to strengthen economic governance in Moldova linked to the management of public resources to reduce fiscal risks (Pillar A) and to level the playing field for private sector development (Pillar B), including in the core economic sectors of agriculture, banking, and energy.
