Sectors	Agriculture and Forestry, Climate and Environment, Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	$ 150.00 million
Project Cost (USD)	$ 180.00 million

Project Description

The project aims to support the Government of Vietnam in mangrove forests restoration, focusing the central, northern central, and the Red river delta regions.
The three elements, according to the Bank are:
(i) “putting in place modem and improved systems for planning, providing inputs for, and financing restoration of coastal forests,
(ii) investing in more effective management arrangements, and in the cultural practices and structures need to extend and manage coastal forests and augment their survival, and
(iii) diversifying the long-term benefits from protecting and maintaining the coastal forests. The project will promote the use of modem approaches to motivate these changes, including modem monitoring systems, market driven payments for ecosystem services, promotion of improved planning, modeling-based determination of site level investments, and upgrading production systems for coastal commodities and promoting integrated value addition.”

The component 1 will be implemented at the central level. Components 2 and 3 will be implemented at the sub national (provincial, district, and commune) level

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
