Project Description

The project is investing in key international aviation infrastructure (on the airside only), navigational and communication equipment, as well as providing technical assistance and support capacity development for regulatory oversight, and operation and management of Samoa's aerodromes.

Project outcomes will be monitored through four indicators: (i) Regulatory Certification of Safety and Security at Faleolo Airport; (ii) State requirements for safety, measured by Universal Safety Oversight Audit Programme (USOAP) reaching global ICAO average; (iii) Modernization of air traffic management, as measured by installation of Automatic Dependent Surveillance-Broadcast (ADS-B) and a Very Small Aperture Terminal (VSAT) system; and (iv) Implementation of a regional safety and security levy for departing international passengers.
