Project Description

According to the bank website, the project objective is to improve irrigation services and strengthen management of irrigation schemes in selected areas. This objective will be achieved through rehabilitation and modernization of irrigation systems; institutional strengthening and improved management, operation and maintenance of these systems. The project will support the rehabilitation of at least 100,000 hectares of irrigated command area. The project has 4 components:

Component A: Urgent Rehabilitation and Infrastructure Improvements, The Government has identified a preliminary list of 41 irrigation schemes, with a total of 335,268 hectares, spread across 11 provinces and 12 balais or river territories.

Component B: Strategic Infrastructure Modernization focus on Jatiluhur Irrigation Scheme, which is served by the Citarum River in Java

Component C: Modernization of Management Systems

Component D: Institutional Modernization and Empowerment

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
