Project Description

The proposed AF is a four-year technical assistance (TA) grant which seeks to ensure value-formoney, efficient public investments, and availability of reliable data. The operation will help with technical assistance for the establishment or upgrade of critical procedures to improve macro-fiscal framework, multi-year budgeting, expenditure chain, procurement, PIM, public administration, and statistics. Setting up effective reforms require involving key stakeholders in the identification of problems and having them work together to build long-term solutions. The AF will thus put a high premium on collaborative leadership and consensus building. To this end, change management for development training for high level officials, as well as deployment of coaches to roll out Rapid Result Initiatives supporting reform implementation will be conducted. Furthermore, to ensure long-term capacity development, a training program of a cohort of young professionals will be conducted in the association with a world-class training institution. The proposed AF will retain the three components of the original project and add a new one on statistics capacity building.
