Project Description

The development objective of Community and Social Development Project (CSDP) for Nigeria, is to sustainably increase access of poor people to social and natural resource infrastructure services. The proposed second additional credit of 75 million US dollars will help finance the costs associated with scaling up project activities in the North East of Nigeria, consisting of six States (Borno, Yobe, Adamawa, Taraba, Bauchi, and Gombe) to support the immediate provision of basic social and natural resource management infrastructure and services to returnees and host communities with the main goal of assisting their resettlement, recovery, and welfare. The main change being introduced to the proposed second AF to the CSDP is to scale up activities in the six North East States of Nigeria, which have been ravaged by the Boko Haram insurgency. The second AF will also be used to provide trauma and psychosocial support to returnee households and internally displaced groups and individuals, as a form of social assistance intervention. The closing date is extended from August 2016 to June 2020.
