Bank Risk Rating	U
Voting Date	2016-11-02
Borrower	Government of Indonesia
Sectors	Industry and Trade, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 400.00 million
Project Cost (USD)	\$ 400.00 million

Project Description

The project has closed on September 30th, 2017

The development objective of the First Indonesia Logistics Reform Development Policy Loan (DPL) Project for Indonesia is to reduce the costs and improve the reliability of the logistics chain in Indonesia. This program document presents a proposed DPL to support the Government of the Republic of Indonesia's priorities for improving the movements of goods within and across the country's borders to further its medium-term economic development and poverty reduction goals.

The proposed operation is the first in a planned programmatic series of two single-tranche operations supporting critical policy and institutional reforms to address bottlenecks at various points of the supply chain by:

- a) strengthening port's governance and operations;
- b) enabling a competitive business environment for logistics service providers; and
- c) making trade processing more efficient and transparent.

The proposed DPL series is structured around the following three pillars, a set of objectives and government program reform areas:

- 1) Pillar A: Enhancing ports' performance. Strengthening port's governance and operations by (i) improving the governance of ports by clarifying the role of Port authorities vis-à-vis port operators; (ii) facilitating the entry of port services operators; and (iii) enhancing coordination of documentary and container examination in ports;
- 2) Pillar B: Improving logistics services. Enabling a competitive business environment for logistics service providers by increasing competition in (i) freight forwarding services, storage, and distribution services; (ii) auxiliary shipping services; and (iii) reducing inventory costs of imported materials for producers;
- 3) Pillar C: Strengthening trade processing. Making trade processing more efficient and transparent by (i) reducing licensing requirements for imports; (ii) facilitating traders

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
