Borrower	FEDERAL GOVERNMENT OF NIGERIA
Sectors	Education and Health
Investment Amount (USD)	$ 125.00 million
Project Cost (USD)	$ 125.00 million

Project Description

The development objective of the Polio Eradication Support Project for Nigeria is to assist the Government of Nigeria, as part of a global polio eradication effort, to achieve and sustain at least 80 percent coverage with oral polio vaccine (OPV) immunization in every state in the country. The project has the following three components: 1.Supply of OPV to national strategic cold stores, 2. Polio Eradication Operations Support, and 3. Routine Immunization (RI) Support. The proposed AF will help finance the costs associated with polio eradication in all the states in Nigeria and the procurement of vaccines for RI for children under 5 years and women of reproductive age. Given that most of the OPV procurement, the polio eradication activities and RI vaccine procurement need to take place in the first half of 2016 (the lead time required to procure and deliver vaccines is at least two months), the AF proposes to apply retroactive financing of 20 percent.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:
http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
