Senegal Rural Electrification Program

Early Warning System

Senegal Rural Electrification Program

WB-P158709

Quick Facts

Countries	Senegal
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	B
Voting Date	2016-12-20
Borrower	ASER
Sectors	Hydropower
Project Cost (USD)	$ 12.47 million

Project Description

The Project Development Objective is to increase access to electricity and reduce greenhouse gas emissions in rural areas of Senegal through result-based carbon finance. The project aims to increase the number of people with access to electricity while also supporting reduction of GHG emissions and reducing the environmental footprint through establishment of mini solar power plants, and other cleaner sources of electricity.

Investment Description

- World Bank (WB)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
