Project Description

The Liaoning Safe and Sustainable Urban Water Supply Project aims to improve water quality and operational efficiency of water supply utilities in the project areas.

There are three components:

1) First component: water supply service infrastructure, is to improve water supply services, reduce Non-Revenue-Water(NRW), and increase energy efficiency.

2) Second component: water supply service management, is to enhance water supply service management through NRW reduction, water quality monitoring, energy savings, and effective asset management.

3) Third component: the project management capacity and institutional strengthening.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
