Project Description

The main development objective of this project is to support the Government of Vietnam to establish a national system for collecting, processing and publishing transport and trade logistics statistics on an annual basis. The statistical data will be used by Government agencies for strategic planning purposes and to formulate and monitor implementation of policies related to transport infrastructure and trade logistics development and to help the private sector, in particular trade and by the private sector logistics firms to access to reliable data for their business development. The trade logistics data system will therefore contribute to improved transparency in the business environment in Vietnam.

Key Results i. A definition of indicators and guidelines for the collection, processing, and reporting of trade logistics data on an annual basis; ii. A pilot comprehensive logistics survey report with processed data; iii. A published pilot annual report on trade logistics statistics based on the survey results; and, iv. Enhanced capacity within the MOT for collecting and reporting trade logistics data.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
