#### **Project Description**

The development objective of the Strengthening Hydro-Meteorological and Climate Services Project for Democratic Republic of Congo (DRC) of is to improve the quality of the Government of the DRC's targeted hydro-meteorological and climate services. The project comprises of four components. The first component will invest in strengthening institutional setup and building capacity of human resources. The second component, modernization of equipment, facilities, and infrastructure for basic observation and forecasting will finance: (i) hydrological and meteorological monitoring networks (small-scale rehabilitation of priority stations and installation of new sensors, for about 20 meteorological and six hydrological stations); (ii) transmission, data management, and data dissemination hardware (equipment needed for data concentration from the field to Kinshasa, management of secured databases interoperable with producers, and users of hydromet information, etc.); (iii) refurbishment of facilities needed to support the services (in Kinshasa and up to two provincial offices); and (iv) technical systems and software for performing meteorological, hydrological and climate forecasting, products, and services. The third component, improvement of hydromet information service delivery will provide technical assistance for delivery of more accurate, timely, and user-friendly products and services to users and decision-makers. The fourth component, project management will finance the following activities: (i) incremental operating costs; (ii) technical design of sub-projects; (iii) procurement, financial management, safeguards, monitoring and evaluation, quality control, and contract management; and (iv) audit, studies, and assessments required under various project components.

#### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
