Vietnam Scaling up Urban Upgrading Project

Quick Facts

Countries	Vietnam
Specific Location	Long Xuyen, Vinh Long, Soc Trang, Tan An, Bac Lieu, Ben Tre, Vi Thanh
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	A
Voting Date	2017-05-30
Borrower	SOCIALIST REPUBLIC OF VIETNAM
Sectors	Climate and Environment, Construction, Infrastructure, Technical Cooperation, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 240.00 million
Project Cost (USD)	\$ 330.00 million

Project Description

The Scaling up Urban Upgrading Project for Vietnam aims to improve infrastructure in priority city areas and improve urban planning in the participating cities.

According to the Bank document, “There are four components. The first component will support tertiary investments in approximately 30 Low Income Areas (LIAs), covering about 650 ha, including:

- (i) construction, rehabilitation, and upgrading of roads and lanes;
- (ii) construction and rehabilitation of drains;
- (iii) improvements to environmental sanitation by rehabilitating or constructing public sewers, constructing septic tanks, providing access to septic management services, and house connections to public sewers;
- (iv) improvement of water supply including the installation of metered domestic connections;
- (v) provision of metered domestic connections for electricity and public lighting in residential lanes and streets; and
- (vi) construction and rehabilitation of social infrastructure facilities such as schools, markets, community halls, public places and green spaces.

The second component provides support to improve infrastructure in line with the broader city development agenda, and increase connectivity of primary and secondary infrastructure with tertiary infrastructure in LIAs.

The third component will include the construction of resettlement areas for affected persons, including construction of primary, secondary and tertiary infrastructure and public facilities.

The fourth component will be complemented by a Technical Assistance (TA) package under project management support which is intended to provide implementation support as well as enhance the cities’ capacity to manage urban development in a risk informed manner”.

Investment Description

- World Bank (WB)

Borrower 90.00

International Development Association (IDA) 240.00

Total Project Cost 330.00
