Project Description

According to the bank document, the proposed project objective is to assist the government to implement extractives sector reforms and operationalize mining and gas sector development opportunities.

Key outcomes include:

- Further modernizing the legal and institutional framework for private sector-led gas development and for delivery of a stable supply of treated gas for power generation and for domestic, industrial, and commercial uses.
- Legal, regulatory and fiscal acts, prepared, approved and implemented by the appropriate sector ministries and regulatory agencies.
- Staff of petroleum sector management institutions (AGE and APA) trained to operationalize and oversee (regulate, manage and monitor legal/regulatory/contractual compliance) in the sector.
- Improved transparency, public understanding and oversight of the GoA’s hydrocarbons resources management.
- Formal environmental and safety inspections based on good international practice for the rehabilitation of existing natural gas processing and transmission infrastructure

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:
