Borrower	Government of Republic of India
Sectors	Energy, Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	$ 250.00 million
Project Cost (USD)	$ 250.00 million

Project Description

The purported objectives of the project are to improve the performance of the electricity distribution in the state of Rajasthan. The operation supports the state Government's efforts to create a sustainable and commercially oriented electricity distribution sector. The operations supported under this program consist of three pillars, which are:

(a) Strengthening the Governance Framework: Measures supported under this pillar seek to provide more operational autonomy to the utilities, institute employee accountability for utility performance, and strengthen the corporate governance framework of the utilities.

(b) Enhancing policies to Restructure its Finances: The policy reforms supported under this pillar are aimed at bringing financial sustainability to the electricity distribution sector.

(c) Improving Operational Performance: Measures under this pillar are aimed at improving enhancing transparency in energy consumption, reducing losses and modernizing the monitoring and control of the distribution network.

This is a World Bank development policy loan.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
